

Rencontres méthodes et recherche

Methods and research meetings

Les rencontres méthodes et recherche offrent un espace de discussion et de présentations centrées principalement sur des recherches thématiques - quantitatives ou qualitatives - abordant des questions méthodologiques particulières et/ou innovantes.

Les rencontres sont ouvertes à toutes personnes intéressées aux méthodes de recherche en sciences sociales. Aucune inscription n'est nécessaire. Venez avec votre repas si vous le souhaitez!

The methods and research meetings are a discussion platform where talks cover substantive research raising interesting methodological questions (quantitative or qualitative), research focusing on methodological issues, or discussions on new methodological approaches.

The meetings are open for everyone interested in social science research methods. No need to enrol. Bring your lunch if you like!

Mardi / Tuesday / 12:15 - 13:30 / Université de Lausanne / Géopolis / 5799

2019

29.10.2019

Using diverse statistical lens to provide insights about the collaborative learning process

Jennifer Olsen
