

11th International Conference of Panel Data Users in Switzerland

The 11th International Conference of Panel Data Users in Switzerland will take place on **9-10 June 2021** at the University of Lausanne. The conference will probably take place only if it can be held at UNIL. This edition will include thematic sessions as well as a poster session. The thematic sessions cover a wide variety of topics, such as health and well-being, education and labour market, socio-economic inequality and mobility, families, gender, ethnic minorities and migration, politics and attitudes, survey methodology, and longitudinal methods. We also offer the possibility to propose complete sessions on other themes. A special "Covid-19" session could also be organized.

We welcome all contributions based on longitudinal data, such as the "Swiss Household Panel" (SHP) and its additional samples (LIVES-FORS Cohort, SHP LIVES-Vaud), the "Transition from Education to Employment" (TREE), the "Survey of Health, Ageing and Retirement in Europe" (SHARE), the "Swiss Survey of Children and Youth" (COCON), other longitudinal datasets or studies based on the SHP-Covid-19-Study. As the SHP is a member of the Cross National Equivalent File (CNEF), we especially welcome presentations or posters comparing Switzerland with other countries participating in the CNEF. Please note that the language of the conference is English.

Deadline for abstracts and session proposals is January 31, 2021.

The conference is interdisciplinary and we welcome participants from all areas of the social sciences. Please submit your session proposal or your abstract for a presentation or a poster to swisspanel@fors.unil.ch.
