

The COVID-19 MOSAiCH survey

Stephanie Steinmetz (University of Lausanne/FORS),

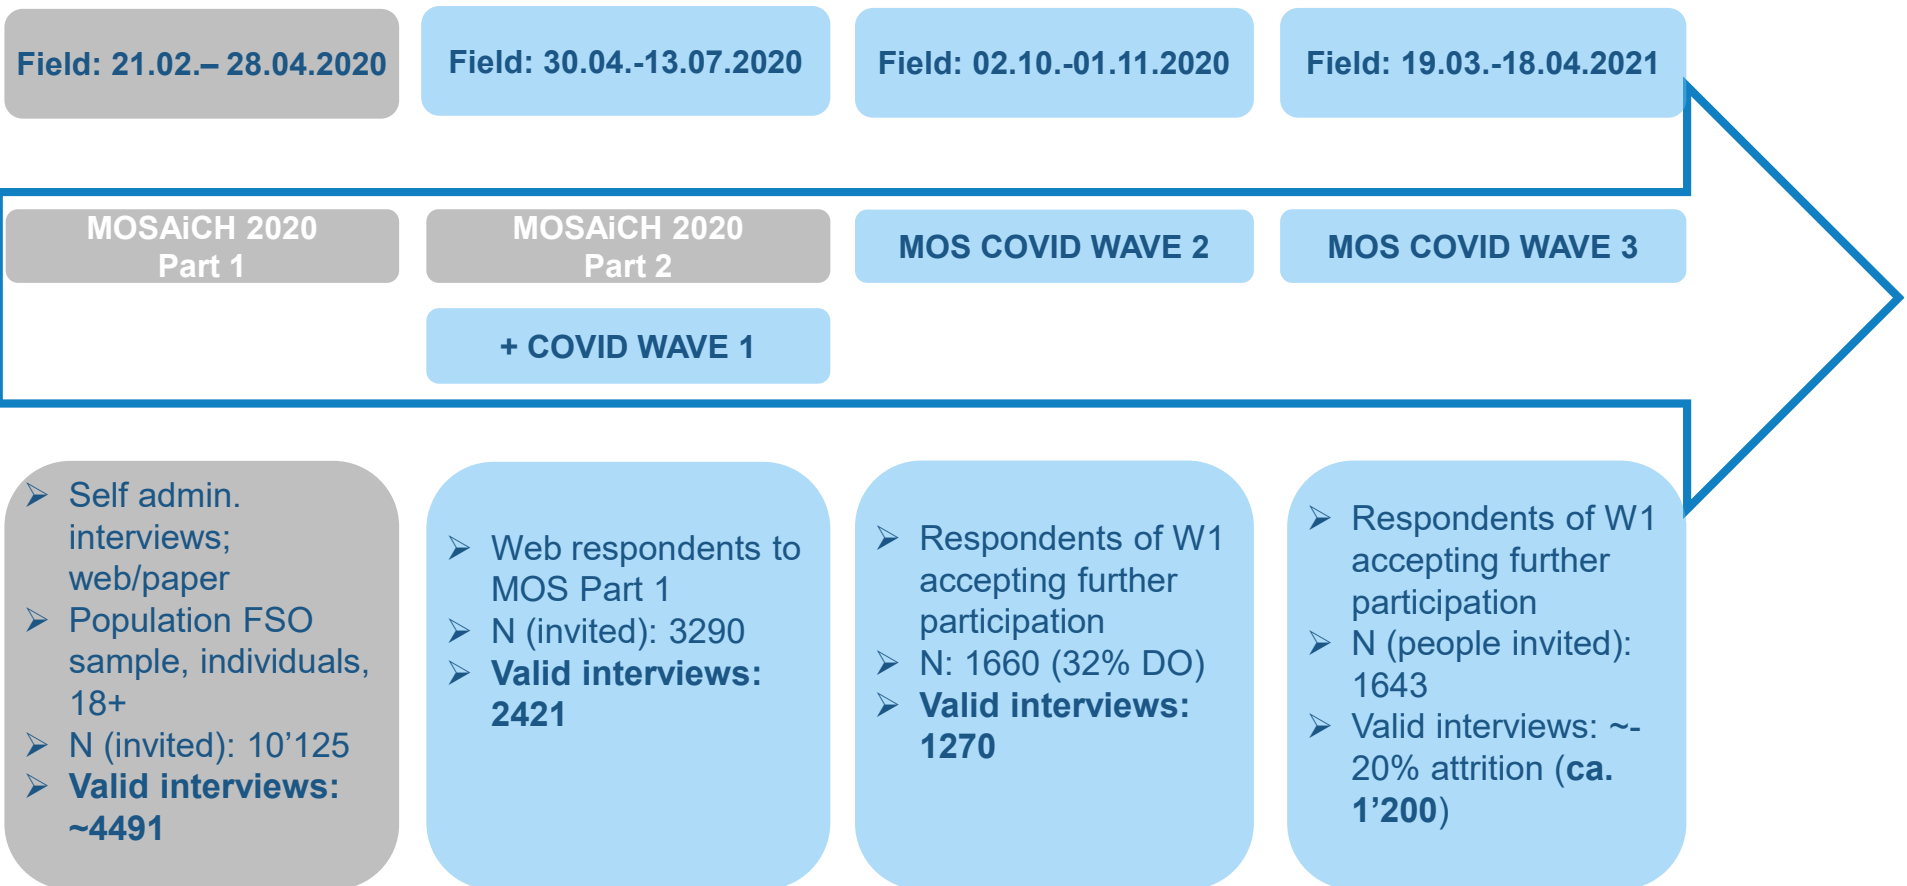

Swiss Covid-19 Data Symposium

March 23, 2021

FORS COVID-19 MOSAiCH study: Basic information

- **COVID-19 MOSAiCH study** started as part of the Swiss MOSAiCH/ISSP data collection in 2020 (second part / web mode)
- **Vision:** to follow people through the pandemic (panel design)
⇒ 3 waves (during lockdown / after / a year after)
- **Target:** private households in Switzerland, people 18+
- **Focus on four broad areas:** well-being, politics, work and work-family reconciliation
- **Team effort:** Karin Nisple (Franziska Ehrler), Gian-Andrea Monsch, Nicolas Pekari, Victor Legler, Michèle Ernst Stähli and the whole MOSAiCH team as well as Georg Lutz & Boris Wernli

FORS COVID MOSAiCH - SURVEY DESIGN

FORS COVID MOSAiCH - QUESTIONNAIRE

Field: 21.02. – 28.04.

Field: 30.04.-13.07.

Field: 02.10.- 01.11.

Field: Spring 2021

MOSAiCH 2020
Part 1

MOSAiCH 2020
Part 2

MOS COVID WAVE 2

MOS COVID WAVE 3

+ COVID WAVE 1

- Part 1: ISSP 2020 on environment
- Part 2: Questions from MOSAiCH CALL

Call to selected researchers
10-15 min lenght (55 items)
4 main topics: well-being, politics, work and work-family reconciliation

20-25 min lenght (100 items)
Kept 4 main topics and extended them further

Replication of Wave 2, with some slight changes depending on COVID situation

MOS COVID W1 Beta dataset (FORSbase)

MOS COVID W1 + W2 Beta dataset (FORSbase)

MOS COVID W1 + W2 + W3 final dataset

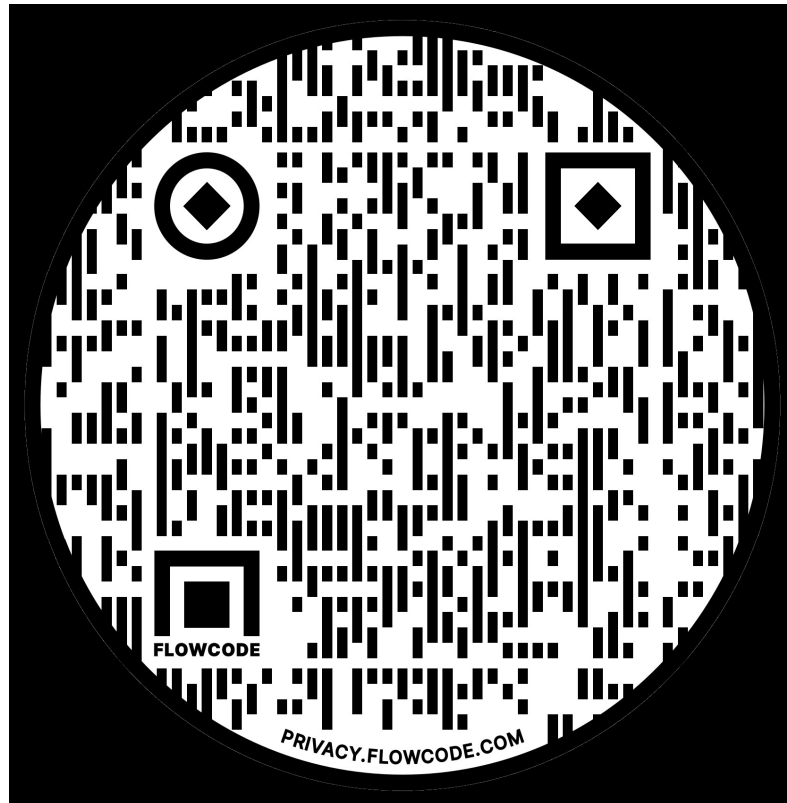

FORS COVID-19 MOSAiCH study: Some more information on questionnaire content

- **Well-being (W1-W3):** experience with virus infection (own/broader network) and general health, worries and satisfaction, support
- **Politics (W1-W3):** trust, Covid measures and competencies
- **Work (W1-W3):** changes in work due to Covid measures (respondent & partner)
- **Work & family reconciliation (W1-W3):** task division (pre- and lockdown), shift in hours spent on tasks, childcare, change in partnership conflict
- **W1: 55 items**
- **Adds in W2 (added 45 items):** loneliness, economic well being/ future of work situation, voluntary work
- **Adds in W3 (repeated W2 with some changes):** vaccination, conspiracy/Covid deniers

FORS COVID-19 MOSAiCH study: Factsheets / Defacto articles

- **Aim:** to bundle the main results of the FORS COVID-19 MOSAiCH study and to reach a broader also (non-)academic audience
- **Approach:** descriptive ⇒ focus on various socio-demographic and other relevant variables
- **Four factsheets:**
 - Well-being and worries during the lockdown
 - Politics, fundamental rights and environmental concerns during the lockdown
 - Work situation during the lockdown and expectations for the future
 - Work-family compatibility during the lockdown
- **Here:** per factsheet **two main topics** are presented ⇒ for more in-depth results, please check out <https://forscenter.ch/covid19>
