

Jan Hrušák
ESFRI CHAIR

Jan Hrušák is senior research fellow (c. 100 scientific papers, 3300 citations) and scientific advisor on European Science policy at the Czech Academy of Sciences, Member of the ministerial board for large research infrastructures and Special envoy for research infrastructures at the ministry. He completed studies in physical chemistry and received PhD (Dr.rer.nat) in 1987 at the Technical University Leuna-Merseburg (Germany), before joined the Institute of Macromolecular Chemistry of the Czechoslovak Academy of Sciences. In 1990 he moved to TU Berlin to work with H. Schwarz in theoretical

chemistry. In 1995 accepted a position at the J. Heyrovský Institute of Physical Chemistry, where, after spending one year as visiting professor at the Institute of Molecular Science at Okazaki (Japan), he is working since. Jan Hrušák served two terms in the executive body of the Czech Academy of Sciences, and he has been appointed for two years Director general for research at the Ministry of Education, youth and sport of the Czech Republic (MEYS). He is longstanding member of the European Strategy Forum on Research Infrastructures - ESFRI (currently chair) and the Czech delegate to ERAC. He was also appointed to the EOSC Executive board.
